Sexual Assault Survivor's Bill of Rights

You have rights. You have the right to get answers, the right to information, and a right to know. This card explains key rights, options, and helpful resources.

You Decide

It's your choice to:

- Get a physical exam,
- Be part of a criminal case, or
- Report the assault.

No matter what you choose, you keep your rights.

Questions?

Ask a health care provider, law enforcement officer, or contact your local rape crisis center.

You Have a Right to Get Answers

- Was your evidence analyzed within 18 months?
- Was the evidence used to make a DNA profile of your attacker?
- Was a DNA profile entered into the law enforcement database? Did they find matches to the profiles?

You Have a Right to Information, Including:

- A free copy of the crime reports. (Ask in writing to your local law enforcement agency.)
- The attacker's sex offender registry information, if convicted.
- Evidence from the rape kit. The rape kit must be:
 - » Taken to the lab and analyzed within 24 months, and
 - » Kept for 20 years, or until you turn 40, if you were under 18 when the assault happened.

Facts:

- DNA evidence on the body can last from 12 hours up to 7 days.
- DNA and other kinds of evidence may break down if exposed to heat, water, or other materials.

Sexual Assault Forensic Evidence Tracking (SAFE-T)

Contact the California Attorney General's Victims' Services Unit for a general location and status of rape kit based on data entered into the SAFE-T database. Or contact the local law enforcement agency that handled your case.
